What is an EarlyON Child & Family Centre?

A Drop in Program designed for children 0 – 6 years old, along with their parents/caregivers. Drop in to any Oshawa location and enjoy quality interactions between adult and child through play and crafts in an environment that enhances and promotes healthy child development. Families are free to explore in our child focused, age appropriate environment. While we encourage the children to learn and play together, it is imperative that they are supervised at all times by their accompanying adult.

Please remember to tidy up after yourself and encourage your children to help you. When children are taught to tidy, they begin the process of developing life- long skills.

Our Main site location also offers FREE registered programs designed to provide children with a healthy start and ease transition into school. Children develop motor skills, language development and learn Math and Science through carefully developed programming.

See inside for Registered Program details.
